Four-Color Process Plate made by The Smith-Brooks
Printing Co. to demonstrate the *commercial* value of
color printing.—Courtesy AUSTIN CANDY COMPANY

TURNING COLOR INTO SALES

PICTURES sold two hundred million dollars' worth of goods for three firms last year. The three firms are Montgomery, Ward & Co., Baltimore Bargain House, and Sears, Roebuck & Co.

None of these firms employs a single salesman. They depend entirely upon printed matter to sell their goods. They show a picture of every article they sell—

—and every year they are showing more and more of these pictures in full color.

For example, at the time Sears, Roebuck & Co. were using one-color illustrations in their shoe catalog, their annual shoe sales totaled \$1,250,000.

One year, as an experiment, they printed the pictures of their shoes in two and three colors.

And that year *their shoe sales increased to \$4,000,000*. They have since applied the use of color to the clothing, vehicle, and several other sections of their catalog—

—because it pays them to use color.

To show manufacturers and other should-be-users of color plates and printing the value of the use of color in selling goods, The Smith-Brooks Company has produced a portfolio, $8\frac{3}{4} \times 12\frac{1}{2}$ in size, showing ten commercial subjects in four colors. It is entitled "Turning Color Into Sales." It is an expensive book, and it cannot be distributed broadcast. It will be sent free to any firm that is interested enough to write for a copy. It is an eye-opener as to the possibilities of more and cheaper sales.

|| in the Directory is as necessary as the sign before your place of business. It keeps your name before the buying public.

The City Directory

|| is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best buyers' guide on earth. A modern, up-to-date method of getting what you want
